THE New York Polyclinic is the oldest post-graduate medical school in America. Students may enter at any time. The Hospital wards adjoin the lecture rooms, and matriculants are thus enabled to witness operations and to follow the treatment of patients. Clinical material in every department is abundant, and all are given an opportunity to study minutely the symptoms of every case.

The New York State Medical Association

WHEN referring to the manifold advantages of membership in the NEW YORK STATE MEDICAL ASSOCIATION call attention to the facts:

That the NEW YORK STATE MEDICAL ASSOCIATION does not exist as an entity, but is composed of the united County and District Branch Associations.

That membership in a regularly chartered County or District Branch Association carries with it membership in the State Association.

That the NEW YORK STATE MEDICAL ASSOCIATION is the legal representative and only affiliated branch in New York State of the AMERICAN MEDICAL ASSOCIATION.

That it is only through membership in the NEW YORK STATE MEDICAL ASSOCIATION that physicians residing in New York State can become members of the AMERICAN MEDICAL ASSOCIATION.

PREFACE

In presenting the third volume of the MEDICAL DIRECTORY OF NEW YORK, NEW JERSEY, and CONNECTICUT to the profession and public, the Committee on Publication calls attention to the fact that in compiling the book a departure has been made in that the names of legally registered physicians have been included, as far as they could be obtained, without regard to their school of practice. Among the reasons for this action on the part of the Committee is their belief that one of the chief objects for the existence of State Medical Associations is to help enforce the medical laws of their States, not the least part of which duty should consist in the prosecution of illegal practitioners, therefore, it is important that the officers and members of these Associations should have at hand a convenient and reliable list of legal practitioners in their States in order that violators of medical practice acts can be readily located for the purpose of prosecution.*

The total number of names contained in the lists of physicians is 12,644, of which 10,112 are in the State of New York, 1,472 in New Jersey, and 1,060 in Connecticut. Of the 10,112 names in the New York State lists 3,991 are credited to the Borough of Manhattan and Bronx, 1,410 to the Borough of Brooklyn, 118 to the Borough of Queens, and 60 to the Borough of Richmond, a total for greater New York of 5,579, which leaves the number of physicians residing in the rest of the State outside of this territory 4,533.

The Committee, its friends, and employees have labored earnestly to make the book in every way more perfect and satisfactory than its predecessors, and while it is believed this has been accomplished and that the lists of names of physicians and the professional data concerning them are fuller and more accurate than heretofore, the Committee is aware of the fact that they are not yet perfect. This fact is largely due to the indifference of some of the physicians to the requests made in their own interests for their professional data, some even failing to reply, consequently, if they fail to find their names in the book, they must blame their own omissions rather than the carelessness of those engaged in the work of gathering information for, and in compiling, the Directory.

---

* A recent decision of the Supreme Court of New York has determined the right of the New York State Medical and its component County Associations to prosecute illegal practitioners, and receive the fine from such prosecutions. See 32 Misc. Supreme Court, N. Y., Reports, p. 116; 65 N. Y. Supp., p. 531, affirmed App. Div., 56 Hun, p. 625.

The Committee thanks all who have in any way assisted in the work but especially acknowledges the valuable aid rendered by Dr. Eden V. Delphey of New York City, Dr. A. G. Bennett of Buffalo, Dr. George W. Goler of Rochester, Dr. O. A. Thomas of Syracuse, Dr. J. O. Farrington of Binghamton, Dr. Julius C. Bierwirth, Dr. E. H. Squibb of the Borough of Brooklyn, and Dr. Archibald Mercer of Newark, N. J. The Committee also desires to thank those who have made its labors possible of fruition by advance purchases of the book which have largely exceeded the sales of other years, and those who have also aided them financially by placing advertisements on some of the pages. For these last the Committee bespeaks the friendly recognition of the members of The New York State Medical Association and their friends.

New Jersey and Connecticut,
64 Madison Avenue,
New York.

September, 1901.

Dear Doctor:

If on examining the Directory you find that any errors or omissions have been made in the record of your professional or other data, kindly notify us at once as preparations are already under way for the fourth volume of the book, which it is expected will be published September 15, 1902.

The Committee, in trying to perfect the book this year, have necessarily spent a great deal of money and time on it, and we hope that you will show your appreciation of our efforts by showing your copy of the book to some of your professional and pharmaceutical friends, advising them to order copies themselves.

Please don't put this duty off to some future occasion, but attend to it at once.

Fraternally yours,

PUBLICATION COMMITTEE.

The duration of human pregnancy is about 275 days. This is subject to some variation, and the longest period is still undetermined. As labor occurs in the larger proportion of cases between 270 and 290 days from the last menstruation, it is usual to reckon either from the first or last day of this period, taking as the mean 280 days, or a little over nine calendar months. For this approximate calculation the first day of the menstrual period may be used as being more readily ascertained. The table presents at a glance the beginning and end of 280 days for every day of the year. Find the date of menstruation in the upper line of the horizontal row, and the figure below, with the corresponding month, will indicate 280 days. In leap year, if the period of pregnancy includes February, the time for labor will be one day earlier than that given in the table.

SUMMARY OF THE MEDICAL LAWS OF NEW YORK STATE.

For full text see Vol. I., 1899, page 254.

REQUIREMENTS FOR LICENSE.

All requirements for admission should be completed at least one week before examinations.

They are as follows:

1. Evidence that applicant is more than 21 years of age (Form 1).

2. Certificates of moral character from not less than two physicians in good standing (Form 2).

3. Evidence that applicant has the general education required, preliminary to receiving the degree of bachelor or doctor of medicine in this State (medical student certificate).

4. Evidence that applicant has studied medicine not less than four full school years of at least nine months each, including four satisfactory courses of at least six months each, in four different calendar years in a medical school registered as maintaining at the time a satisfactory standard. New York medical schools and New York medical students shall not be discriminated against by the registration of any medical school out of the State, whose minimum graduation standard is less than that fixed by statute for New York medical schools.

The increase in the required course of medical study from three to four years does not take effect till January 1, 1898, and does not apply to students who matriculated before that date and received the degree of M.D. before January 1, 1902 (Form 1).

First exemption: " The regents may in their discretion accept as the equivalent for any part of the 3d or 4th requirement, evidence of five or more years reputable practice of medicine, provided that such substitution be specified in the license."

5. Evidence that applicant " has received the degree of bachelor or doctor of medicine from some registered medical school, or a diploma or license conferring full rights to practice medicine in some foreign country " (Form 3 or original credentials).

6. The candidate must pass examinations in anatomy, physiology and hygiene, chemistry, surgery, obstetrics, pathology and diagnosis, therapeutics, practice and materia medica. The questions " shall be the same for all candidates, except that in therapeutics, practice and materia medica all the questions submitted to any candidate shall be chosen from those prepared by the board selected by that candidate and shall be in harmony with the tenets of that school as determined by its State board of medical examiners."

Second exemption: " Applicants examined and licensed by other State examining boards registered by the regents as maintaining standards not lower than those provided by this article, and applicants who matriculated in a New York

State medical school before June 5, 1890, and who received the degree of M.D. from a registered medical school before August 1, 1895, may without farther examination, on payment of $10 to the regents and on submitting such evidence as they may require, receive from them an indorsement of their licenses or diplomas, conferring all rights and privileges of a regents' license issued after examination."

7. A fee of $25 payable in advance.

Further information relating to State examination in Medicine and Dentistry, etc., may be obtained from Melvil Dewey, M. A., Albany, Secretary of the Board of Regents of the University of the State of New York.

4. Certificates containing palpable errors of name, date, etc., or which are illegible, will be returned, and a new certificate required, as no corrections, erasures, or interlineations will be permitted.

BURIAL PERMITS.

1. No burial permit for a person deceased in New York City will be issued excepting in exchange for a proper certificate of death.

(If a permit already issued has been lost or mislaid, a duplicate will be issued only in exchange for an affidavit of the undertaker that the first one has been lost, and that, if found, it will be returned to the Health Department.

If duplicate permits are issued for the same case, the one that is not used must be returned to the Health Department.)

2. Certificates of death must be filled out with black ink.

3. No certificate will be accepted which has been corrected, interlined, or altered in any way so as to change its meaning. (See, also, Rule 2 for physicians.)

4. No certificate will be accepted which has been imperfectly filled out (except for foundlings or the unknown dead), or which is illegible.

6. No earth burials are allowed below 130th st. No vault below that street shall be opened for the deposit of a body, without the approval of the Sanitary Superintendent or Assistant Sanitary Superintendent.

7. If a permit is issued for burial in the City Cemetery, the coupons are removed and retained by the Bureau of Records. If a change in the place of burial renders it necessary to have the coupons, they can be procured at the Permit Office on showing the original permit and making a written statement of the change.

(Every change in the place of burial from that originally given when the permit is issued, must be reported at the Burial Permit Office, and the permit altered by the clerk, and not by the undertaker, as the place of burial constitutes an important feature of the permanent record.)

---

* Disinfecting solutions recommended by the Board of Health are (1) six ounces of carbolic acid in one gallon of hot water; (2) sixty grains of corrosive sublimate and two tablespoonfuls of common salt in one gallon of hot water. The latter should not be kept in a metallic vessel.

TRANSIT PERMITS.

For persons who die outside of New York City.

1. Transit permits will be issued for the burial in or passage through the city of bodies of persons who die outside of New York City only in exchange for the papers and evidences of identity and of the cause of death which have accompanied the body from the place of death, and upon a written statement (on blanks furnished by the Department) of the persons applying for such permits.

2. Such permits will be required in every case, excepting when the body is accompanied by a permit issued by the proper health officer, under the laws of the State of New York, New Jersey or Connecticut, a transit permit issued in either of those States having the same effect in New York City as one issued by this Department.

3. Transit permits will not, in any case, be issued in advance of the arrival of the body, whether by ship, boat, or railroad, nor will such permit be issued when the death was due to yellow fever, Asiatic cholera, or smallpox, excepting by express permission of the President of the Department, or of the Medical Commissioner, on personal application to him.

4. Transit permits will be issued for the removal of a dead body from one portion of the city to another, for the convenience of the family or the undertaker. Such permit will have no coupons, and must be returned to the Health Department when the burial permit is applied for.

5. Transit permits for bodies arriving at the Grand Central Depot from outside of the city will be issued at any hour, day or night, by the officer in charge of the police-station in the building.

DISINTERMENT PERMITS.

1. Permits for the disinterment of bodies already buried within the limits of New York City will be issued upon writted application (on blanks furnished by the Health Department) of relatives of the deceased, or other persons who furnish written evidence from such relatives that they have been authorized by them to apply for such permit.

2. Permits for disinterment must be countersigned by the Sanitary Superintendent or the Assistant Sanitary Superintendent.

3. Bodies which are disinterred must be placed in hermetically sealed caskets or coffins.

CEMETERIES.

LEGAL DUTIES OF SEXTONS AND OTHERS IN CHARGE OF CEMETERIES.

1. No dead body of a human being shall be buried or deposited in any tomb, vault, or cemetery within the city of New York without a permit from the Health Department. (San. Code, § 170.)

2. No new cemetery, tomb, or vault for dead human bodies shall be established, nor any such place opened or disturbed, without a permit from the Health Department. (San. Code, § 171.)

3. Every dead body buried within the City of New York must be buried to the depth of six feet below the surface of the ground, and four feet below any closely adjacent street. (San. Code, § 171.)

4. Permits received by keepers of cemeteries within the city limits must be returned to the Health Department before 12 M. on Monday of each week. (San. Code, § 173.)

By order of the Board of Health.
EMMONS CLARK, Secretary.

MEDICAL SOCIETIES OF NEW JERSEY.

* Signifies that no reply has been received in response to request for information.

NOTE.—"District Society" is equivalent to County Society.

THE MEDICAL SOCIETY OF NEW JERSEY.—Organized in 1766. Received its first charter June 2, 1790. This act expired by its own limitation in 1815, and a new act of 1816 provided for a District Society in each county, to make their own laws and regulate their own concerns, provided they were not contrary to the Constitution of the State Society. This charter was not acceptable to the profession, and in 1818 a supplement was passed, providing that the society should be composed of four delegates from each District Society which were or might hereafter be formed, who, with the officers for the time being, should constitute the society.

This supplementary act, constituting the society by delegates of the local societies, placed it upon a new basis and secured the cordial sympathy and co-operation of the physicians of the State. The State Society was thus made the creature of the local societies, and derived its life from their delegates annually elected. The mode of constituting the society has undergone no substantial change since 1818. In 1864 the society, desirous of surrendering "all its special privileges and pecuniary immunities, and to reorganize, as nearly as possible, upon the voluntary basis," applied for and obtained its present charter, which went into effect on its centennial year, 1866.

Approved May 22, 1894.

CHAPTER CCCVI.

An Act to Regulate the Practice of Medicine and Surgery, to License Physicians and Surgeons, and to Punish Persons Violating the Provisions Thereof.

§ 1.—Be it enacted by the Senate and General Assembly of the State of New Jersey, That the governor shall appoint, by and with the advice and consent of the senate, a board of examiners to be known as the State board of medical examiners, said board to consist of nine members, who shall be persons of recognized professional ability and honor; the terms of office of said board shall be three years, or until their successors are appointed; provided, however, that the members of the board first appointd shall be divided into three classes, each class to consist of three persons; the first class shall hold office under said appointment for one year, the second for two years and the third for three years from the date of their appointment, and thereafter each member shall be appointed for a term of three years, and provided further, that said board shall consist of five old-school physicians, three homœopathic and one eclectic; said appointees, shall, within thirty days after the receipt of the respective commissions, take, subscribe and file, in the office of the secretary of state, the oath or affirmation prescribed by law.

§ 2.—And be it enacted, That said board shall elect a president, a secretary and a treasurer from its membership; it shall have a common seal, and its president shall be empowered to issue subpœnas and to administer oaths in taking testimony in any matter pertaining to the duties of said board; it shall make and adopt all necessary rules, regulations and by-laws not inconsistent with the laws of this State or of the United States, whereby to perform the duties and to transact the business required under the provisions of this act.

§ 3.—And be it enacted, That said board shall hold meetings for examinations at the capitol building of this State on the third Tuesday of June and September of each year, and at such other times and places as the board may deem expedient; said board shall keep an official record of all its meetings, and an official register of all applicants for a license to practice medicine and surgery in this State; said register shall show the name, age, nativity, last and intended place of residence, of each candidate, the time he or she has spent in obtaining a competent common-school education, and in medical study, in or out of medical school, and the names and location of all medical schools or examining and licensing boards which have granted said applicant any degree or certificate of attendance upon lectures upon medicine and surgery or State examinations; said register shall also show whether said applicant was examined, licensed or rejected under this act, and said register shall be prima facie evidence of all matters therein contained.

§ 4.—And be it enacted, That all persons hereafter commencing the practice of medicine or surgery in any of its branches in this State, shall apply to said board for a license so to do; applicants for examination shall present to the secretary of this board, at least ten days before the commencement of the examination at which he or she is to be examined, a written application on a form or forms provided by said board, together with satisfactory proof that the applicant is more than twenty-one years of age, is of good moral character, has obtained a competent common-school education, and has either received a diploma conferring the degree of doctor of medicine from some legally incorporated medical college (which in the opinion of said board was in good standing at the time of issuing said diploma) in the United States, or a diploma or license conferring the full right to practise all the branches of medicine and surgery in some foreign country, and has also studied medicine four years, including three courses of lectures in different years in some legally incorporated American or foreign medical college or colleges prior to the granting of said diploma or foreign license; provided, however, that two courses of medical lectures, both of which shall be either begun or completed within the same calendar year, shall not be considered to satisfy the above requirement; and if said application is approved and the said applicant shall have deposited the sum of twenty-five dollars with the treasurer of such board as an examination fee, which said sum shall be returned to such applicant in case of failure to pass such examination, the applicant shall sign his or her name opposite a number in a book kept for that purpose by the secretary, and shall mark his or her examination paper with said number and shall be known to the members of said board only by said number until his or her papers have been examined and marked; applicants examined and licensed by or who are or have been members of State examining and licensing boards of other States, upon the payment of fifty dollars to the treasurer of said board, and on filing with the secretary of said board a copy of his or her license or certificate certified by the affidavit of the president and secretary of such board, showing also that the standard requirements of said board at the time said license or certificate was issued was substantially the same as that required by the said board, and of his or her affidavit as to the personality thereof, may be granted a license by said board without further examination thereby.

§ 5.—And be it enacted, That all examinations shall be written in the English language, and the questions and answers shall be, except in materia medica and therapeutics, such as can be answered in common by all schools of practice, if the applicant intends to practise homœopathy or eclecticism, the members of said board of those schools respectively shall examine said applicant in materia medica and therapeutics of the school in which such applicant intends to practise; the examinations shall be in the following subjects, namely, materia medica and therapeutics, obstetrics and gynecology, practice of medicine, including diseases of the skin, nose and throat; surgery, including surgical anatomy and diseases of the eye, ear and genito-urinary organs, anatomy, physiology, chemistry, histology, pathology, bacteriology, hygiene, medical jurisprudence, and in such other subjects as the board may decide; all examinations shall be both scientific and practical, and of sufficient severity to test the candidate's fitness to practise medicine and surgery; if said examination is satisfactory, the board shall issue a license, entitling the applicant to practise medicine and surgery in this State; the votes of all examiners shall be yes or no, and written with their signatures upon the backs of the examination papers of each candidate; said application and examination papers shall be deposited in the State library, in the capitol building, and they shall be prima facie evidence of all matters therein contained; all licenses shall be signed by the president and secretary of the board, and shall be attested by the seal thereof.

§ 6.—And be it enacted, That the board may refuse to grant or may revoke a license for the following causes, to-wit, chronic and persistent inebriety; the practice of criminal abortion; conviction of crime involving moral turpitude or for publicly advertising special ability to treat or cure chronic and incurable diseases; or where any person shall present to this board any diploma, license or certificate that shall have been illegally obtained, or that shall have been signed or issued unlawfully or under fraudulent representations; in complaints for violating the provisions of this section, the accused person shall be furnished with a copy of the complaint, and given a hearing before said board in person or by attorney; and any person, after such refusal or revocation of license who shall attempt or continue the practise of medicine shall be subject to the penalties hereinafter prescribed.

§ 7.—And be it enacted, That the person so receiving said license shall file the same, or a certified copy thereof, with the clerk of the county in which he or she resides, and said clerk shall file said certificate or copy thereof and enter a memorandum thereof, giving the date of said license, with the name of the person to whom the same is issued, and the date of said filing, in a book to be provided by this board and to be kept for that purpose, and for which registry the said county clerk shall be entitled to demand and receive from each person registering the sum of one dollar; in case the person so licensed shall move into another county of this State, he or she shall procure from the said clerk a certified copy of such registration, and then file the same with the clerk of the county to which he or she shall remove, and the said clerk shall file and enter the same with like effect as if the same was an original license, and for which registry the said clerk shall be entitled to demand and receive the sum of one dollar; and each county clerk in the counties of this State shall, upon the last day of November of each year, furnish to the secretary of said board a list of all the certificates of this board filed in his office during the previous year, and upon notice to him of the change of location or death of the person so licensed, or of the revocation of said license, said county clerk shall enter at the appropriate place in the records so kept by him, a memorandum of said fact, and said memoranda shall be furnished to the secretary of this board in the annual report above-required.

§ 8.—And be it enacted, That any person shall be regarded as practicing medicine or surgery, within the meaning of this act, who shall use the words or letters "Dr.," "Doctor," "Professor," "M.D.," or "M.B." in connection with his or her name, or any other title intending to imply or designate him or her as a practitioner of medicine or surgery in any of its branches, and who in connection with such title or titles or without the use of such titles shall prescribe, direct, recommend, advise, apply, give or sell, for the use of any person or persons, any drug or medicine or other agency or application for the treatment, cure or relief of any bodily injury, infirmity or disease; and it is further provided that the use of any one of the aforementioned titles or the exposure of a sign, circular, advertisement or any other device or information, indicating thereby the occupation of the person or persons, shall be considered prima facie evidence; and it is further provided, that the provisions of this act shall apply to all persons professing and attempting to cure disease by means of the so-called system of "faithcurism," "mind-reading," "laying-on-of-hands," and other similar systems.

§ 9.—And be it enacted, That this act shall not apply to the commissioned surgeons of the United States army, navy or marine hospital service while so commissioned, or to lawfully qualified physicians or surgeons residing in other States meeting registered physicians and surgeons of this State in consultation, or to any legally qualified physician or surgeon of another State taking charge of the practice of a legally qualified physician or surgeon of this State temporarily during the latter's absence therefrom and upon the written requests to said board therefor, or to any physician or surgeon of another State and duly authorized under the laws thereof, to practice medicine and surgery therein; provided, that such practitioner shall not open an office or a place for the practice of his profession within the borders of this State, or to anyone while actually serving as a member of the resident medical staff of any legally incorporated charitable or municipal hospital or asylum, or to any legally qualified and registered dentist exclusively engaged in practicing the art of dentistry, or to any person claiming the right to practice medicine and surgery in this State who has been practicing therein since before the fourth day of July, one thousand eight hundred and ninety; provided, said right or title was obtained upon a duly-registered diploma, of which the holder and applicant was the lawful possessor, issued by a legally-chartered medical institution which, in the opinion of said board, was in good standing at the time said diploma was issued, or to any person resident of this State who has been continuously engaged in giving treatment by electricity herein during the past seven years; provided, that said person has graduated from a legally incorporated electro-therapeutic school in good standing.

§ 10.—And be it enacted, That any person hereafter commencing or continuing the practice of medicine and surgery in any of its branches in this State without first having obtained and filed the license herein provided for or contrary to the provisions of this act, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished for the first offense by a fine of not less than one hundred dollars or by imprisonment in the county jail for a period of not less than thirty days, or by both fine and imprisonment, and for each subsequent offence the punishment shall be double that of the preceding one; and it shall be the duty of the respective district attorneys of the counties of this State to prosecute violation of the provisions of this act.

§ 11.—And be it enacted, That the expenses of said board and of the examination shall be paid from the license fees above provided for, and if any surplus remain, the same may be distributed among the members of said board as a compensation for their services as members, but otherwise they shall receive no compensation whatever.

§ 12.—And be it enacted, That all acts or parts of acts, general or special, now existing not in accordance with the provisions of this act, or inconsistent therewith, are hereby repealed.

§ 2.—Any person of this State who at the time of the passage of this act shall be, or previously thereto has been actually engaged in this State in the practice of medicine, surgery, midwifery, or any alleged practice of healing, may, before the first day of October, 1893, file with the State Board of Health duplicate statements subscribed and sworn to by him upon blanks furnished by said board, giving his name, age, and place of birth, and present residence, stating whether he is a graduate of any medical college or not, and if so, of what college, and the date of such graduation, and, if practicing under a license from any of the medical societies of this State, stating which society and the date when said license was obtained, and also stating the length of time during which said person has been engaged in practice in this State and how long in practice elsewhere; and he shall also state whether he has been engaged in general practice, or only in some special branch of medicine or surgery, and if so, what branch. Upon the receipt of such statement as aforesaid, the State Board of Health shall issue upon the receipt of two dollars, to the person filling the same, a certificate of registration which shall state the kind or branch of practice in which the person named therein is engaged.

§ 3.—Any person who shall, subsequent to said first day of October, 1893, file with said State Board of Health duplicate statements in the form prescribed in the preceding section, showing that he is a graduate of a medical college which is recognized as reputable by any one of the chartered medical societies of the State, shall receive from said State Board of Health upon the payment of two dollars, a certificate of registration, which shall state the kind or branch of practice in which the person named therein is engaged or is to be engaged.

CHAPTER 135.—AN ACT CONCERNING THE PRACTICE OF MEDICINE, SURGERY, AND MIDWIFERY.

Be it enacted by the Senate and House of Representatives in General Assembly convened:

§ 1.—Section eight of chapter CLVIII.of the public acts of 1893 is hereby amended to read as follows: The said examining committees shall hold three regular examinations in each year, as follows: one on the second Tuesday of March, one on the second Tuesday of July, and one on the second Tuesday of November, at such places as they may designate, and such additional meetings and at such places as they shall determine. Applicants to practice medicine or surgery shall be examined in anatomy, physiology, medical chemistry, obstetrics, hygiene, surgery, pathology, diagnosis, and therapeutics, including practice and materia medica. Each committee shall frame its own questions and conduct its examinations in writing, and both questions and answers shall be placed on file with the State Board of Health. Each applicant shall have the right to choose which of the three committees shall be the one by whom he shall be examined; but before taking such examination he shall pay to the committee the sum of fifteen dollars, provided, however, that the fee for examination in midwifery alone shall be ten dollars. An applicant, after having been rejected by any of said examining committees, shall not be eligible to examination by another committee of examination until after the expiration of twelve months.

§ 2.—Section one of chapter CLXXXVII. of the public acts of 1897 is hereby amended by adding at the end of the section the following: "And no person shall be eligible to said examination until he presents evidence to the examining committee by whom he is to be examined, satisfactory to said committee, that he has received a diploma from some legally incorporated medical college," so that it shall read as follows: No person, after the passage of this act, shall obtain or receive a certificate of registration as required by the provisions of chapter CLVIII. of the public acts of 1893, until he has passed a satisfactory examination before one of the examining committees appointed for the purpose under the provisions of said act, nor until he has complied with the other requirements of said act; and no person shall be eligible to said examination until he presents evidence to the examining committee by whom he is to be examined, satisfactory to said committee, that he has received a diploma from some legally incorporated medical college.

§ 3.—The secretary of the State Board of Health, upon the written request of all of the members of any one of the examining committees provided for by chapter CLVIII. of the public acts of 1893, shall have authority to revoke and cancel the certificate of registration of any person convicted of any crime in the practice of his professional business, or convicted of a felony; provided, however, that no one of the examining committees shall have the right to request the revocation and cancellation of a certificate granted upon the examination of any one of the other examining committees.

September, 1901.

Dear Doctor:

If on examining the Directory you find that any errors or omissions have been made in the record of your professional or other data, kindly notify us at once as preparations are already under way for the fourth volume of the book, which it is expected will be published September 15, 1902.

The Committee, in trying to perfect the book this year, have necessarily spent a great deal of money and time on it, and we hope that you will show your appreciation of our efforts by showing your copy of the book to some of your professional and pharmaceutical friends, advising them to order copies themselves.

Please don't put this duty off to some future occasion, but attend to it at once.

Fraternally yours,

The object of this Association shall be to federate into one compact organization the medical profession of the United States, for the purpose of fostering the growth and diffusion of medical knowledge, of promoting friendly intercourse among American physicians, of safeguarding the material interests of the medical profession, of elevating the standard of medical education, of securing the enactment and enforcement of medical laws, of enlightening and directing public opinion in regard to the broad problems of state medicine, and of representing to the world the practical accomplishments of scientific medicine.

Article III.—Composition of the Association.

§ 1.—This Association shall consist of Permanent Members, Members by Invitation, Honorary Members, Associate Members, and Delegates.

§ 2. Permanent Members.—Permanent Members shall consist of such members of the state societies, together with their affiliated local societies, entitled to representation in this Association as shall make application for admission, in writing to the Treasurer, and accompany said application with a certificate of good standing signed by the president and secretary of the society of which they are members, and the annual fee.

§ 3. Members by Invitation.—Members by Invitation shall consist of distinguished physicians of foreign countries who may be invited by the officers of Sections or of the Association. They shall hold their connection with this Association until the close of the annual session to which they are invited, and shall be entitled to participate in all of its affairs, as in the case of permanent members, but they shall not be assessed the annual dues.

§ 4. Honorary Members.—Honorary Members shall be physicians of foreign countries who have risen to pre-eminence in the profession of medicine.

§ 5. Associate Members.—Representative teachers and students of the allied sciences, not physicians, may become Associate Members by the vote of the House of Delegates.

§ 6. Delegates.—Delegates shall consist of such members of the affiliated state and territorial medical societies and of the medical service of the United States Army, of the United States Navy, and of the United States Marine Hospital Service as shall be chosen in accordance with the provisions of the Constitution and By-Laws of the American Medical Association.

Article IV.—House of Delegates.

§ 1.—There shall be a House of Delegates which shall consist of (1) delegates elected by the permanently-organized state and territorial medical societies in affiliation with this Association; (2) delegates elected by each of the component scientific Sections of this Association; (3) one delegate each from the medical departments of the United States Army and United States Navy, and one from the United States Marine Hospital Service.

§ 2.—The total membership of the House of Delegates shall not exceed 150, and the delegates representing the affiliated state and territorial medical societies shall be apportioned among the several affiliated state and territorial medical organizations in direct ratio to their true membership.

Article V.—Sections.

In order that its appropriate scientific work may be expeditiously and systematically performed this Association shall be divided into Sections, each of which shall be devoted to the encouragement and pursuit of knowledge in one of the recognized branches into which the science and art of medicine are for convenience divided. New Sections may be organized from time to time as the necessity for their existence arises, and when authorized by the House of Delegates.

Article VI.—Branches.

The House of Delegates shall have authority to provide for and to create such branch organizations as may be deemed essential to the promotion of the welfare of the medical profession.

Article VII.—Sessions and Meetings.

The Association shall hold an Annual Session, during which there shall be held daily a General Meeting, which shall be open to all registered members and delegates. The place and time for holding each Annual Session shall be determined for each next succeeding year by the House of Delegates.

§ 4.—No member of the House of Delegates shall be eligible to any of the offices mentioned in the foregoing sections of this article.

Article IX.—Funds and Appropriations.

Funds for meeting its current expenses and awards from year to year shall be raised by the Association by an equal assessment of not more than ten dollars annually on each of the permanent members; by voluntary contributions for specific objects; and from the profits of its publications. Funds may be appropriated by the House of Delegates in accordance with the articles of incorporation for defraying the expenses of its annual meetings; for publication; for enabling standing committees to fulfil their respective duties, conduct their correspondence, and procure materials necessary for the completion of their stated annual reports; for the encouragement of scientific investigation by prizes and awards of merit; and for defraying the expenses incidental to specific investigation.

§ 2.—The House of Delegates shall, upon a two-thirds vote of its own members or upon a two-thirds vote of the General Meeting, submit any question, either through The Journal or by mail, to the general membership for final vote; and if the persons voting shall comprise a majority of the members, the majority of such votes cast shall determine the question, and this vote shall be binding upon the House of Delegates.

Article XI.—Amendments.

The House of Delegates shall have authority to amend any article of this Constitution by a three-fourths vote of all the members composing the House of Delegates; provided, that such amendment shall have been proposed in open meeting of the House of Delegates one year previous to being acted upon, that it shall have been published at least three times in The Journal during the interim, and that it shall have been officially transmitted to each affiliated state and territorial society for consideration at its annual meeting.

Adopted at St. Paul, Minn., June 5, A. D., 1901.

BY-LAWS.

Chapter I.—Membership.

§ 1.—No permanent member shall take part in the proceedings of the Association, or of any of its Sections, until he has exhibited his credentials to the proper officer or committee, entered his name and address in full on the registration book, and paid his annual dues. He shall also indicate the Section to which he will officially attach himself.

§ 2.—Permanent members who have complied with the foregoing regulations shall at all times be entitled to attend the General Meetings and sections, and to participate in the affairs of the Association, so long as they continue to conform to its regulations.

§ 3.—No individual who shall be under sentence of expulsion or suspension from an affiliated society (whether a directly affiliated state or territorial society or an indirectly affiliated local society), of which he may have been a member, or whose name shall have been dropped from the rolls of the same, shall be received as a member or shall be allowed to continue as a member of this Association, until he shall have been relieved from said sentence or disabality by such society; nor shall any person not a member of his local affiliated medical society, provided there be such, be eligible to membership or be allowed to continue as a member in the American Medical Association.

§ 4.—Members may vote for Section officers only in that Section with which, upon registration, they have declared their intention of uniting.

§ 5.—Any permanent member who shall fail to pay his annual dues for one year, unless absent from the country, shall be dropped from the roll of permanent members, after having been notified by the Secretary of the forfeiture of his membership.

§ 6.—Honorary Members may be elected by the House of Delegates on the nomination of a Section, but not more than three Honorary Members shall be elected in any one year.

§ 7.—Honorary and Associate Members shall have all the rights of membership except those of voting and holding office. They shall not be assessed for dues, nor shall they be entitled to receive The Journal free.

§ 8.—The House of Delegates shall have authority to provide for membership under proper restriction from among the members of recognized medical societies of neighboring countries, provided that the right of representation in the House of Delegates shall be restricted to affiliated state and territorial medical societies in the United States.

Chapter II.—General Meetings.

The General Meetings shall include all registered members and delegates, who shall have equal rights to participate in discussions and to vote upon pending questions. Each General Meeting shall be presided over by the President, or, in his absence or disability, by one of the Vice-Presidents. Before it there shall be delivered upon the opening day of each annual meeting, the address by the President, whose recommendations shall thereupon go to the House of Delegates for action, and on each following meeting such addresses on scientific subjects as may be assigned to orators selected for the purpose.

It shall have power to create committees or commissions for scientific work of special interest or importance, and to receive reports of the same, provided that any expense incurred in connection therewith by the Association must first be authorized by concurrent action of the House of Delegates and the Board of Trustees.

Chapter III.—House of Delegates.

§ 1.—The House of Delegates, as far as may be consistent with the Articles of Incorporation, shall be the legislative and fiscal body of the Association. Its sessions shall be open to the members of the Association, but except upon invitation of the House of Delegates, they shall have no right to participate in its proceedings.

§ 2.—Each state and territorial society entitled to representation shall have the privilege of sending to the House of Delegates one delegate for every 500 of its resident regular members, and one for any additional fraction of that number; but each affiliated state and territorial society shall be entitled to at least one delegate.

§ 3.—The House of Delegates, once in every three years, shall appoint a committee of five on reapportionment, of which the President and Secretary shall be members. It shall be the duty of this committee to examine the membership lists of all the affiliated state and territorial medical societies, and to determine therefrom the number of delegates to the Association to which each state or territory shall be entitled for the ensuing three years, beginning with the annual meeting next succeeding that at which the reapportionment is approved by the House of Delegates.

§ 4.—Members of the House of Delegates shall be elected for a term of two years, and those state and territorial societies entitled to more than one representative are requested so to arrange such election that one-half of their delegates, as near as may be, shall be elected each year.

§ 5.—In order that each state and territorial medical society may properly provide for a full delegate representation at each meeting of the Association it shall have the authority to elect alternates, who, upon presentation of the proper credentials, shall be empowered to serve as delegates in the absence of the regularly-elected delegates. Provided that, in case of the absence of the regularly appointed delegate or alternate, then the permanent members from that affiliated society, who are present at that meeting, may select one of their number, who shall represent that society, and provided further, that when only one permanent member is present from any affiliated society, that member may represent that society in case he is in other respects eligible to the office of delegate.

§ 6.—No one shall serve as a member of the House of Delegates who has not been a permanent member of the American Medical Association for at least two years.

§ 7.—Every Delegate from an affiliated state or territorial society, before being permitted to take part in the proceedings of the House of Delegates, must deposit with the Secretary, or other designated officer or committee, a certificate signed by the President and Secretary of the Society from which he receives his authority, stating that he has been regularly and legally elected a Delegate to the American Medical Association for a definitely stated term, and the delegates from the Sections shall present credentials signed by the Chairman and Secretary of the Section they represent. This certificate shall be subject to review by the Judicial Council and all disputes as to credentials shall be investigated by the Judicial Council and determined by vote of the House of Delegates.

§ 8.—The House of Delegates shall approve all memorials and resolutions of whatever character issued in the name of the American Medical Association before the same shall become effective.

§ 9.—The House of Delegates shall present a summary of its proceedings to the last General Meeting of each annual session of the Association, or it shall publish the same in a bulletin to be issued each day during the annual session.

§ 10.—A majority of the members composing the House of Delegates shall constitute a quorum for the transaction of business.

Chapter IV.—Election and Installation of Officers.

§ 1.—All elections shall be by ballot.

§ 2.—The election of officers shall be the first order of business of the House of Delegates after the reading of the minutes on the morning of the last day of the annual session. Only those in attendance at the annual session at which the election occurs shall be eligible for election.

§ 3.—The officers elected at each annual session of the Association shall be installed at the closing General Meeting.

Chapter V.—Duties of Officers.

§ 1. President.—The President shall preside at the General Meetings and over the House of Delegates, preserve order and decorum in debate, give a casting vote when necessary, and perform all the other duties that custom and parliamentary usage may require. In addition to these duties the President, on the morning of the first day of the annual session following his election, shall deliver before the General Meeting an address, not exceeding forty minutes in length, upon such matters as he may deem of importance to the Association. He shall discharge such other duties as the Association may impose on him from time to time. He may at any time make such suggestions as he may deem for the best interests of the Association, either to the General Meeting, or to the House of Delegates, or to any standing or special committee of the Association, provided that said suggestions are submitted in writing. He shall not be eligible for re-election.

§ 2. Vice-Presidents.—The Vice-Presidents, when called upon, shall assist the President in the performance of his duties, and during his absence, or at the request of the President, one of them shall officiate in his place. In case of the death, resignation, or removal of the President, the vacancy shall be filled by the senior Vice-President, beginning with the first. They shall perform all other duties prescribed for that office.

§ 3. Secretary.—The Secretary shall keep in separate books the minutes of each day's proceedings of the General Meeting and of the House of Delegates, which minutes shall be read and presented for adoption by the respective bodies. He shall give due notice of the time and place of each next ensuing annual session; notify all members of committees of their appointment, and of the duties assigned to them; hold correspondence with other permanently-organized medical societies, both domestic and foreign; and carefully preserve the archives and unpublished transactions of the Association.

It shall be his duty to verify the credentials of members, to receive and announce all essays and memoirs voluntarily contributed, to determine the order in which such papers are to be read and considered, and to fix a definite hour each day for the general addresses before the Association. He shall prepare for publication the official program of each meeting. It shall be the duty of the Secretary to provide a special registration book for members of the House of Delegates, in which shall be recorded the name of every delegate in attendance at each meeting, together with that of the society which he represents. It shall also be his duty to prepare a roll of the delegates attending each annual session, to facilitate voting by roll-call.

The Editor of The Journal of the American Medical Association shall be Secretary of this Association.

§ 4. Treasurer.—The Treasurer shall have charge of the funds and property of the Association, and shall disburse its funds only on the order of the Board of Trustees, properly attested by the Chairman and Secretary of the Board. He shall give to the Board of Trustees bond for the safe-keeping and proper use and disposal of his trust, and through the same Board he shall present his accounts, duly authenticated, at every annual session of the House of Delegates.

§ 5. Board of Trustees.—The Board of Trustees shall consist of nine members, three of whom shall be elected annually by the House of Delegates to serve for three years. It shall be the duty of this Board to provide and superintend the publication and distribution of all such proceedings, transactions, and memoirs of the Association as may be ordered to be published in such a manner as may be directed; and in doing this it shall have authority to appoint an editor and such assistants as it deems necessary, determine their salaries, and procure and control such materials as may be necessary for the accomplishment of the work assigned to it. Further, to facilitate its work, it shall be the duty of the secretaries of the Association and of the several Sections, during each annual session or as soon thereafter as practicable, to deliver to the Board, or such editor or agent as it shall appoint, all such records of proceedings, reports, addresses, papers, and other documents as may have been ordered for publication either in the General Meetings in the House of Delegates, or in the Sections. All money received by the Board of Trustees, or its agents, resulting from the discharge of the duties assigned to them, must be paid to the Treasurer of the Association, and all orders on the Treasurer for disbursements of money in any way connected with the work of publication must be endorsed by the President of the Board of Trustees and countersigned by the Secretary thereof. All matters of the Association pertaining to the expenditure of money for other purposes shall be referred, during the annual session, to the Board of Trustees, who shall make a report on the same within twenty-four hours after the same are referred to them, and if the House of Delegates orders the expenditure of money in connection with said report, the payment shall be made by the Treasurer as provided above. It shall be the further duty of the said Board of Trustees to hold the official bond of the Treasurer for the faithful execution of his office, to annually audit and authenticate his accounts, and to present a statement of the same in its annual report to the House of Delegates, which report shall also specify the character and cost of all the publications of the Association during the year, and the amount of all other property belonging to the Association, under its control, with such suggestions as it may deem necessary. In the event of vacancy in the office of Treasurer, by death or otherwise, the Board of Trustees shall fill the vacancy ad interim.

§ 6.—All business of each annual session shall be completed by the officers who have served through the session.

Chapter VI.—Standing Committees.

The Standing Committees shall be the following:

1. A Committee of Arrangements.
2. A Judicial Council.
3. A Committee on Medical Legislation.
4. A Committee on Nominations.
5. A Committee on Transportation.

And such other Committees as the House of Delegates from time to time may create.

Chapter VII.—Duties of Committees.

§ 1. Committee of Arrangements.—The Committee of Arrangements shall be appointed by the President, and shall be composed of seven members residing in the place at which the Association is to hold its next annual session. It shall be required to provide: 1. A hall for the General Meetings. 2. Hall for the House of Delegates. 3. Halls for the Sections. 4. Rooms for Committees. 5. Rooms for postoffice and the force thereof. 6. Rooms for registration and the force thereof. To meet these expenses the Committee of Arrangements shall have the proceeds of the exhibition hall. This arrangement must be agreed to by the representative of the local committee inviting the Association, before a place for the meeting of the Association is selected by the House of Delegates.

§ 2. Judicial Council.—The Judicial Council shall be composed of nine members, three of whom shall be chosen annually by the House of Delegates to serve for three years. All questions of a personal character, including complaints, protests, and credentials, shall be referred at once, after the report of the Committee of Arrangements or other presentation, to the Judicial Council without discussion.

The said Council shall organize by choosing a Chairman and Secretary, shall keep a permanent record of its proceedings, and shall report its findings to the House of Delegates at the earliest practicable moment.

§ 3. Committee on Medical Legislation.—The Committee on Medical Legislation shall consist of one delegate from each state, to be appointed annually by the President of the Association. It shall be the duty of this Committee to represent before Congress and elsewhere the wishes of this Association in regard to pending medical and sanitary legislation. It shall be the duty of this Committeee to consider and act upon all proposed national, state, or local legislation that in any respect bears upon the promotion and preservation of the public health, or upon the material or moral welfare of the medical professsion. It shall have power to fill any vacancy that may occur in its membership, and to act ad interim when necessity arises.

The Committee on Legislation shall report to the House of Delegates at each annual session its proceedings during the previous year, and shall recommend such action in respect to pending legislation as it shall deem proper.

§ 4. Committee on Nominations.—The Committee on Nominations shall consist of nine members, not more than one from one state or territory, selected annually by the House of Delegates. It shall be the duty of this Committee, after consultations with the members of the Association, to hold one or more meetings at which the assignment of the offices of the Association for each ensuing year shall be carefully considered. The Committee shall then, on the morning of the third day of the annual session, report the result of its deliberations to the House of Delegates in the shape of a ticket providing one, two, or three names for each office, but not more than one candidate for each office shall be named from any one state or territory. Nothing in this section shall be construed to prevent additional nominations being made by the members of the House of Delegates.

§ 5. Transportation Committee.—The House of Delegates shall appoint a Committee on Transportation, which Committee shall secure railroad rates for the annual session and publish the same in The Journal of the American Medical Association sufficiently early to enable all who desire to attend the annual session to obtain necessary information.

§ 6.—Duties of the Committees.—The Standing Committees shall discharge all the duties imposed on them by the By-Laws and such other duties as the Association may from time to time direct.

§ 7.—The members of the Standing Committees whose appointments are not otherwise provided for shall be selected and appointed by the President of the Association before the adjournment of the annual session.

§ 8.—The Special Committees shall perform the duties for which they are created, and when the report of a special committee is received and acted on said committee shall cease to exist.

§ 9.—All Special Committees shall be appointed by the officer presiding over the meeting at the time the special committee is directed to be constituted. No one appointed on a special committee, who fails to report at the meeting next succeeding the one at which he is appointed, shall be continued on such committee, unless a satisfactory excuse is offered.

§ 10.—The House of Delegates shall have authority to appoint committees for special purposes from among members of the Association who are not members of the House of Delegates, and such Committees shall have the right to report to the House of Delegates in person, and to participate in the debate thereon pending the adoption of such report; but they shall not have the right to vote.

Chapter VIII.—Time of Meetings.

§ 1.—The General Meetings of the American Medical Association shall be held at 11 a. m. and 7.30 p.m. of the first day of the annual session, at 7.30 p. m. of the two subsequent days, and at 12 noon of the concluding day.

§ 2.—The various Sections of the Association shall hold their first meeting of each annual session at 2 p. m. of the first day, and on subsequent days of the annual session they shall meet from 9 a. m. to 12 noon and from 2.30 p. m. to 6 p. m. until their respective programs are completed, or as the Sections themselves may otherwise order; provided, that no Section meeting shall be appointed in conflict with the General Meetings.

§ 3.—The House of Delegates shall hold its first meeting of each annual session at 2 p. m. of the first day, and on subsequent days at such time as may be necessary to complete its business, provided that it shall not meet at hours that will conflict with the General Meetings of the Association.

Chapter IX.—Sections.

§ 1.—The American Medical Association shall be divided into the following Sections:

1. Practice of Medicine.
2. Surgery and Anatomy.
3. Obstetrics and Gynecology.
4. Ophthalmology.
5. Laryngology, Otology, and Rhinology.
6. Diseases of Children.
7. Materia Medica, Pharmacy, and Therapeutics.
8. Physiology and Pathology.
9. Stomatology.
10. Nervous and Mental Diseases.
11. Cutaneous Medicine and Surgery.
12. Hygiene and Sanitary Science.

§ 2.—Each Section shall be composed of such members as have complied with Sections 1, 2, 3, and 4 of Chapter I of these By-Laws.

§ 3. Officers of Sections.—The officers of each Section shall be a Chairman, a Secretary, and an Executive Committee. The latter shall consist of the last three retiring chairmen. At the commencement of the afternoon meeting of the third day of each annual session, each Section shall elect its own officers to serve for the ensuing year, their duties to commence with the close of the annual session at which they are elected and to continue until their successors are elected and qualify. Each Section shall elect annually two representatives to the House of Delegates. In each Section a nominating committee of three members shall be elected by open ballot on the first day to make nominations for Section officers.

§ 4. Addresses in Sections.—The Chairman of each Section shall prepare an address on recent advances in the branches belonging to his Section, including such suggestions in regard to improvements or methods of work as he may deem important, and present the same to the Section over which he presides on the first day of its annual session. The reading of such addresses shall occupy not more than twenty minutes.

§ 5. Papers before Sections.—It shall be the duty of every member of the Association who proposes to present a paper or report before a Section to forward either the paper or an abstract indicative of its contents, and its length, to the Secretary of such Section at least one month before the annual session at which the paper or report is to be presented. This abstract shall contain not less than fifty nor more than two hundred words.

It shall also be the duty of the Secretary of each Section to arrange such papers in the order in which they shall be read, after which he shall send such information to the Secretary of the Association at least twenty-eight days before the annual session for publication in the official program for the use of all members attending the annual session.

§ 6. Length of Papers and Discussions.—No paper, the reading of which occupies more than twenty minutes, shall be read before any Section. Authors of longer papers, however, may read abstracts before a Section within the allotted twenty minutes. Such papers shall be referred by the Section to the Executive Committee of the Section or to a sub-committee specially appointed for their examination. Such committee shall be allowed twenty days for such examination; at the end of which time they shall forward the papers to the Board of Trustees or to the Editor, with such recommendations as they may deem proper. No member shall address a Section more than once upon the same subject, nor speak longer than five minutes without the approval of the Section.

All papers presented directly to the Association, and other matters, may, at the discretion of the Association, be referred to the various Sections for their consideration and report.

§ 7. Publication of Papers and Reports.—No report or other paper shall be entitled to publication in The Journal of the American Medical Association, unless it be approved by each member of the Executive Committee of the Section before which it is read.

Authors of papers are required to return their proofs within two weeks after their reception.

Every paper received by the Association and ordered to be published, and all plates or other means of illustration, shall be considered the exclusive property of the Association, and shall be published and sold for the exclusive benefit of the Association.

The Board of Trustees shall have full discretionary power to omit from The Journal of the American Medical Association, in part or in whole, any paper that may be referred to it by any of the Sections, unless specially instructed to the contrary by vote of the House of Delegates.

No report or other paper shall be presented to this Association, or any one of its Sections, unless it be so prepared that it can be put at once into the hands of the Secretary to be transmitted to the Board of Trustees, and all papers read before the Sections must be approved by each member of the Executive Committee of that Section before publication.
it has actually been read by its author, or unless for special reasons when the author has been present and prepared to read the paper, the Association or Section to which it is presented shall unanimously vote to have it read by title. All other papers shall be treated by the Board of Trustees and Editor as volunteer papers.

Reprints and transactions of Sections, including its list of members, its rules of order, its list of officers, as now published, shall be paid for out of the funds of the Association and furnished free to members of the Association.

Chapter X.—Addresses.

The House of Delegates shall elect annually, three members to deliver addresses in the General Meetings of the next ensuing annual session—one on some topic or topics relating to general medicine, one relating to general surgery, and one relating to state medicine. None of these addresses shall exceed thirty minutes in its delivery.

Chapter XI.—Delegates to Foreign Medical Societies.

The President shall be authorized to appoint annually delegates to represent this Association at the meetings of such scientific bodies in foreign countries as are in affiliation with this Association, whose appointment is not otherwise provided for.

Chapter XII.—Rules of Order.

§ 1.—This Association shall be governed by the rules prescribed in "Roberts' Rules of Order."

§ 2. The Previous Question.—When the previous question is demanded, it shall take at least ten members to second it; and when the main question is put under force of the previous question and negatived, the question shall remain under consideration as if the previous question had not been enforced.

§ 3.—No one shall be permitted to address the Association until he shall have announced his name and residence, which shall be distinctly repeated by the chair; but no member, except an officer of the Association, or an appointed orator, or an officer of a committee presenting a report, shall be permitted to address the General Meetings from the platform. Remarks shall be limited to five minutes.

§ 4.—No new business shall be introduced at the General Meeting of the Association on the last day of each annual session except by unanimous consent.

CODE OF MEDICAL ETHICS.

OF THE DUTIES OF PHYSICIANS TO THEIR PATIENTS AND OF THE OBLIGATIONS OF PATIENTS TO THEIR PHYSICIANS.

Article I.—Duties of Physicians to Their Patients.

§ 1.—A physician should not only be ever ready to obey the calls of the sick, but his mind ought also to be imbued with the greatness of his mission, and the responsibility he habitually incurs in its discharge. These obligations are the more deep and enduring, because there is no tribunal other than his own conscience to adjudge penalties for carelessness or neglect. Physicians should, therefore, minister to the sick with due impressions of the importance of their office; reflecting that the ease, the health and the lives of those committed to their charge depend on their skill, attention, and fidelity. They should study, also, in their deportment, so to unite tenderness with firmness, and condescension with authority, as to inspire the minds of their patients with gratitude, respect, and confidence.

§ 2.—Every case committed to the charge of a physician should be treated with attention, steadiness, and humanity. Reasonable indulgence should be granted to the mental imbecility and caprices of the sick. Secrecy and delicacy, when required by peculiar circumstances, should be strictly observed; and the familiar and confidential intercourse to which physicians are admitted in their professional visits, should be used with discretion, and with the most scrupulous regard and fidelity and honor. The obligation of secrecy extends beyond the period of professional services; none of the privacies of personal and domestic life, no infirmity of disposition or flaw of character observed during professional attendance should ever be divulged by the physician except when he is imperatively required to do so. The force and necessity of this obligation are indeed so great that professional men have, under certain circumstances, been protected in their observance of secrecy by courts of justice.

§ 3.—Frequent visits to the sick are in general requisite, since they enable the physician to arrive at a more perfect knowledge of the disease—to meet promptly every change which may occur, and also tend to preserve the confidence of the patient. But unnecessary visits are to be avoided, as they give useless anxiety to the patient, tend to diminish the authority of the physician, and render him liable to be suspected of interested motives.

§ 4.—A physician should not be forward to make gloomy prognostications, because they savor of empiricism by magnifying the importance of his services in the treatment or cure of the disease. But he should not fail on proper occasions to give to the friends of the patient timely notice of danger when it really occurs; and even to the patient himself, if absolutely necessary. This office, however, is so peculiarly alarming when executed by him, that it ought to be declined whenever it can be assigned to any other person of sufficient judgment and delicacy. For the physician should be the minister of hope and comfort to the sick; that, by such cordials to the drooping spirit, he may smooth the bed of death, revive expiring life, and counteract the depressing influence of those maladies which often disturb the tranquillity of the most resigned in their last moments. The life of a sick person can be shortened not only by the acts, but also by the words or the manner of the physician. It is, therefore, a sacred duty to guard himself carefully in this respect, and to avoid all things which have a tendency to discourage the patient and to depress his spirits.

§ 5.—A physician ought not to abandon a patient because the case is deemed incurable; for his attendance may continue to be highly useful to the patient, and comforting to the relatives around him, even in the last period of a fatal malady, by alleviating pain and other symptoms, and by soothing mental anguish. To decline attendance, under such circumstances, would be sacrificing to fanciful delicacy and mistaken liberality, that moral duty which is independent of, and superior to, all pecuniary consideration.

§ 6.—Consultations should be promoted in difficult or protracted cases, as they give rise to confidence, energy, and more enlarged views in practice.

§ 7.—The opportunity which a physician not unfrequently enjoys of promoting and strengthening the good resolutions of his patients suffering under the consequences of vicious conduct, ought never to be neglected. His counsels, or even remonstrances, will give satisfaction, not offense, if they be proffered with politeness, and evince a genuine love of virtue, accompanied by a sincere interest in the welfare of the person to whom thy are addressed.

Article II.—Obligations of Patients to Their Physicians.

§ 1.—The members of the medical profession, upon whom is enjoined the performances of so many important and arduous duties toward the community, and who are required to make so many sacrifices of comfort, ease, and health, for the welfare of those who avail themselves of their services, certainly have a right to expect and require that their patients should entertain a just sense of the duties which they owe to their medical attendants.

§ 2.—The first duty of a patient is to select as his medical adviser one who has received a regular professional education. In no trade or occupation do mankind rely on the skill of an untaught artist; and in medicine, confessedly the most difficult and intricate of the sciences, the world ought not to suppose that knowledge is intuitive.

§ 3.—Patients should prefer a physician whose habits of life are regular, and who is not devoted to company, pleasure, or to any pursuit incompatible with his professional obligations. A patient should, also, confide the care of himself and family, as much as possible, to one physician; for a medical man who has become acquainted with the peculiarities of constitution, habits, and predispositions of those he attends is more likely to be successful in his treatment than one who does not possess that knowledge.

A patient who has thus selected his physician should always apply for advice in what may appear to him trivial cases, for the most fatal results often supervene on the slightest accidents. It is of still more importance that he should apply for assistance in the forming stage of violent diseases: it is to a neglect of this precept that medicine owes much of the uncertainty and imperfection with which it has been reproached.

§ 4.—Patients should faithfully and unreservedly communicate to their physician the supposed cause of their disease. This is more important, as many diseases of a mental origin simulate those depending on external causes and yet are only to be cured by ministering to the mind diseased. A patient should never be afraid of thus making his physician his friend and adviser; he should always bear in mind that a medical man is under the strongest obligations of secrecy. Even the female sex should never allow feelings of shame or delicacy to prevent their disclosing the seat, symptoms, and causes of complaints peculiar to them. However commendable a modest reserve may be in the common occurrences of life, its strict observance in medicine is often attended with the most serious consequences, and a patient may sink under a painful and loathsome disease, which might have been readily prevented had timely intimation been given to the physician.

§ 5.—A patient should never weary his physician with a tedious detail of events or matters not appertaining to his disease. Even as relates to his actual symptoms, he will convey much more real information by giving clear answers to interrogatories, than by the most minute account of his own framing. Neither should he obtrude upon his physician the details of his business nor the history of his family concerns.

§ 6.—The obedience of a patient to the prescriptions of his physician should be prompt and implicit. He should never permit his own crude opinions as to their fitness to influence his attention to them. A failure in one particular may render an otherwise judicious treatment dangerous, and even fatal. This remark is equally applicable to diet, drink, and exercise. As patients become convalescent they are very apt to suppose that the rules prescribed for them may be disregarded, and the consequence, but too often, is a relapse. Patients should never allow themselves to be persuaded to take any medicine whatever that may be recommended to them by the self-constituted doctors and doctresses who are so frequently met with, and who pretend to possess infallible remedies for the cure of every disease. However simple some of their prescriptions may appear to be, it often happens that they are productive of much mischief, and in all cases they are injurious, by contravening the plan of treatment adopted by the physician.

§ 7.—A patient should, if possible, avoid even the friendly visits of a physician who is not attending him—and when he does receive them, he should never converse on the subject of his disease, as an observation may be made, without any intention of interference, which may destroy his confidence in the course he is pursuing, and induce him to neglect the directions prescribed to him. A patient should never send for a consulting physician without the express consent of his own medical attendant. It is of great importance that physicians should act in concert; for although their modes of treatment may be attended with equal success when applied singly, yet conjointly they are very likely to be productive of disastrous results.

§ 8.—When a patient wishes to dismiss his physician, justice and common courtesy require that he should declare his reasons for so doing.

§ 9.—Patients should always, when practicable, send for their physician in the morning, before his usual hour of going out; for by being early aware of the visits he has to pay during the day, the physician is able to apportion his time in such a manner as to prevent an interference of engagements. Patients should also avoid calling on their medical adviser unnecessarily during the hours devoted to meals or sleep. They should always be in readiness to receive the visits of their physician, as the detention of a few minutes is often of serious inconvenience to him.

§ 10.—A patient should after his recovery, entertain a just and endearing sense of the value of the services rendered him by his physician; for these are of such a character that no mere pecuniary acknowledgment can repay or cancel them.

OF THE DUTIES OF PHYSICIANS TO EACH OTHER AND TO THE PROFESSION AT LARGE.

Article I.—Duties for the Support of Professional Character.

§ 1.—Every individual on entering the profession, as he becomes thereby entitled to all its privileges and immunities, incurs an obligation to exert his best abilities to maintain its dignity and honor, to exalt its standing, and to extend the bounds of its usefulness. He should, therefore, observe strictly such laws as are instituted for the government of its members; should avoid all contumelious and sarcastic remarks relative to the faculty as a body; and while, by unwearied diligence, he resorts to every honorable means of enriching the science, he should entertain a due respect for his seniors, who have, by their labors, brought it to the elevated condition in which he finds it.

§ 2.—It is not in accord with the interests of the public or the honor of the profession that any physician or medical teacher should examine or sign diplomas or certificates of proficiency for, or otherwise be specially concerned with, the graduation of persons whom they have good reason to believe intend to support and practice any exclusive and irregular system of medicine.

§ 3.—There is no profession from the members of which greater purity of character and a higher standard of moral excellence are required, than the medical; and to attain such eminence is a duty every physician owes alike to his profession and and to his patients. It is due to the latter, as without it he can not command their respect and confidence, and to both, because no scientific attainments can compensate for the want of correct moral principles. It is also incumbent on the faculty to be temperate in all things, for the practice of physics requires the unremitting exercise of a clear and vigorous understanding; and in emergencies, for which no professional man should be unprepared, a steady hand, an acute eye, and an unclouded head may be essential to the well-being, and even to the life, of a fellow-creature.

§ 4.—It is derogatory to the dignity of the profession to resort to public advertisements, or private cards, or handbills, inviting the attention of individuals affected with particular diseases—publicly offering advice and medicine to the poor gratis, or promising radical cures; or to publish cases and operations in the daily prints, or to suffer such publications to be made; to invite laymen to be present at operations; to boast of cures and remedies; to adduce certificates of skill and success, or to perform any other similar acts. These are the ordinary practices of empirics, and are highly reprehensible in a regular physician.

§ 5.—Equally derogatory to professional character is it for a physician to hold a patent for any surgical instrument or medicine, or to dispense a secret nostrum, whether it be the composition or exclusive property of himself or others. For, if such nostrum be of real efficacy, any concealment regarding it is inconsistent with beneficence and professional liberality; and if mystery alone give it value and importance, such craft implies either disgraceful ignorance or fraudulent avarice. It is also reprehensible for physicians to give certificates attesting the efficacy of patent or secret medicines, or in any way to promote the use of them.

Article II.—Professional Services of Physicians to Each Other.

§ 1.—All practitioners of medicine, their wives, and their children while under the paternal care, are entitled to the gratuitous services of any one or more of the faculty residing near them, whose assistance may be desired. A physician afflicted with disease is usually an incompetent judge of his own case; and the natural anxiety and solicitude which he experiences at the sickness of a wife, a child, or any one who, by ties of consanguinity, is rendered peculiarly dear to him, tend to obscure his judgment and produce timidity and irresolution in his practice. Under such circumstances medical men are peculiarly dependent upon each other. and kind offices and professional aid should always be cheerfully and gratuitously afforded. Visits ought not, however, to be obtruded officiously; as such unasked civility may give rise to embarrassment, or interfere with that choice on which confidence depends. But if a distant member of the faculty, whose circumstances are affluent, requests attendance, and an honorarium be offered, it should not be declined; for no pecuniary obligation ought to be imposed, which the party receiving it should wish not to incur.

Article III.—Of the Duties of Physicians as Respects Vicarious Offices.

§ 1.—The affairs of life, the pursuit of health, and the various accidents and contingencies to which a medical man is peculiarly exposed, sometimes require him temporarily to withdraw from his duties to his patients, and to request some of his professional brethren to officiate for him. Compliance with this request is an act of courtesy, which should always be performed with the utmost consideration for the interest and character of the family physician, and when exercised for a short period all the pecuniary obligations for such services should be awarded to him. But if a member of the profession neglect his business in quest of pleasure and amusement, he can not be considered as entitled to the advantages of the frequent and long-continued exercise of this fraternal courtesy, without awarding to the physician who officiates the fees arising from the discharge of his professional duties.

In obstetrical and important surgical cases, which give rise to unusual fatigue, anxiety, and responsibility, it is just that the fees accruing therefrom should be awarded to the physician who officiates.

Article IV.—Of the Duties of Physicians in Regard to Consultations.

§ 1.—A regular medical education furnishes the only presumptive evidence of professional abilities and acquirements, and ought to be the only acknowledged right of an individual to the exercise and honors of his profession. Nevertheless, as in consultations the good of the patient is the sole object in view, and this is often dependent on personal confidence, no intelligent regular practitioner, who has a license to practice from some medical board of known and acknowledged respectability, recognized by the Association, and who is of good moral and professional standing in the place where he resides, should be fastidiously excluded from fellowship, or his aid refused in consultation, when it is requested by the patient. But no one can be considered as a regular practitioner or a fit associate in consultation whose practice is based on an exclusive dogma, to the rejection of the accumulated experience of the profession, and the aids actually furnished by anatomy, physiology, pathology, and organic chemistry.

§ 2.—In consultations, no rivalship or jealousy should be indulged; candor, probity, and all due respect should be exercised toward the physician having charge of the case.

§ 3.—In consultations the attending physician should be the first to propose the necessary questions to the sick; after which the consulting physician should have the opportunity to make such further inquiries of the patient as may be necessary to satisfy him of the true character of the case. Both physicians should then retire to a private place for deliberation; and the one first in attendance should communicate the directions agreed upon to the patient or his friends, as well as any opinion which it may be thought proper to express. But no statement or discussion of it should take place before the patient or his friends, except in the presence of all the faculty attending. and by their common consent; and no opinions or prognostications should be delivered which are not the result of previous deliberation and concurrence.

§ 4.—In consultations, the physician in attendance should deliver his opinion first; and when there are several consulting, they should deliver their opinions in the order in which they have been called. No decision, however, should restrain the attending physician from making such variations in the mode of treatment as any subsequent unexpected change in the character of the case may demand. But such variation, and the reasons for it, ought to be carefully detailed at the next meeting in consultation. The same privilege belongs also to the consulting physician if he is sent for in an emergency, when the regular attendant is out of the way, and similar explanation must be made by him at the next consultation.

§ 5.—The utmost punctuality should be observed in the visits of physicians when they are to hold consultations together, and this is generally practicable, for society has been considerate enough to allow the plea of a professional engagement to take precedence of all others, and to be an ample reason for the relinquishment of any present occupation. But as professional engagements may sometimes interfere and delay one of the parties, the physician who first arrives should wait for his associate a reasonable period, after which the consultation should be considered as postponed to a new appointment. If it be the attending physician who is present, he will, of course, see the patient and prescribe; but if it be the consulting one, he should retire, except in case of emergency, or when he has been called from a considerable distance, in which latter case he may examine the patient, and give his opinion in writing and under seal, to be delivered to his associate.

§ 6.—In consultations, theoretical discussions should be avoided, as occasioning perplexity and loss of time. For there may be much diversity of opinion concerning speculative points, with perfect agreement in those modes of practice which are founded, not on hypothesis, but on experience and observation.

§ 7.—All discussions in consultation should be held as secret and confidential. Neither by words nor manner should any of the parties to a consultation assert or insinuate that any part of the treatment pursued did not receive his assent. The responsibility must be equally divided between the medical attendants—they must equally share the credit of success as well as the blame of failure.

§ 8.—Should an irreconcilable diversity of opinion occur when several physicians are called upon to consult together, the opinion of the majority should be considered as decisive; but if the numbers be equal on each side, then the decision should rest with the attending physician. It may, moreover, sometimes happen that two physicians can not agree in their views of the nature of a case and the treatment to be pursued. This is a circumstance much to be deplored, and should always be avoided, if possible, by mutual concessions, as far as they can be justified by a conscientious regard for the dictates of judgment. But in the event of its occurrence, a third physician should, if practicable, be called to act as umpire; and, if circumstances prevent the adoption of this course, it must be left to the patient to select the physician in whom he is most willing to confide. But, as every physician relies upon the rectitude of his judgment, he should, when left in the minority, politely and consistently retire from any further deliberation in the consultation, or participation in the management of the case.

§ 9.—As circumstances sometimes occur to render a special consultation desirable, when the continued attendance of two physicians might be objectionable to the patient, the member of the faculty whose assistance is required in such cases should sedulously guard against all future unsolicited attendance. As such consultations require an extraordinary portion of both time and attention, at least a double honorarium may be reasonably expected.

§ 10.—A physician who is called upon to consult, should observe the most honorable and scrupulous regard for the character and standing of the practitioner in attendance; the practice of the latter, if necessary, should be justified as far as can be, consistently with a conscientious regard for truth, and no hint or insinuation should be thrown out which could impair the confidence reposed in him, or affect his reputation. The consulting physician should also carefully refrain from any of those extraordinary attentions or assiduities which are too often practiced by the dishonest for the base purpose of gaining applause, or ingratiating themselves into the favor of families and individuals.

Article V.—Duties of Physicians in Cases of Interference.

§ 1.—Medicine is a liberal profession, and those admitted into its ranks should found their expectations of practice upon the extent of their qualifications; not on intrigue or artifice.

§ 2.—A physician, in his intercourse with a patient under the care of another practitioner, should observe the strictest caution and reserve. No meddling inquiries should be made—no disingenuous hints given relative to the nature and treatment of his disorder; nor any course of conduct pursued that may directly or indirectly tend to diminish the trust reposed in the physician employed.

§ 3.—The same circumspection and reserve should be observed when, from motives of business or friendship, a physician is prompted to visit an individual who is under the direction of another practitioner. Indeed, such visits should be avoided, except under peculiar circumstances; and when they are made, no particular inquiries should be instituted relative to the nature of the disease, or the remedies employed, but the topics of conversation should be as foreign to the case as circumstances will admit.

§ 4.—A physician ought not to take charge of or prescribe for a patient who has recently been under the care of another member of the faculty in the same illness, except in cases of sudden emergency, or in consultation with the physician previously in attendance, or when the latter has relinquished the case, or been regularly notified that his services are no longer desired. Under such circumstances, no unjust and illiberal insinuations should be thrown out in relation to the conduct or practice previously pursued, which should be justified as far as candor and regard for truth and probity will permit; for it often happens that patients become dissatisfied when they do not experience immediate relief, and, as many diseases are naturally protracted, the want of success, in the first stage of treatment, affords no evidence of a lack of professional knowledge and skill.

§ 5.—When a physician is called to an urgent case, because the family attendant is not at hand, he ought, unless his assistance in consultation be desired, to resign the care of the patient to the latter immediately on his arrival.

§ 6.—It often happens in case of sudden illness, or of recent accidents and injuries, owing to the alarm and anxiety of friends, that a number of physicians are simultaneously sent for. Under these circumstances, courtesy should assign the patient to the first who arrives, who should select from those present any additional assistance that he may deem necessary. In all such cases, however, the practitioner who officiates should request the family physician, if there be one, to be called, and, unless his further attendance be requested, should resign the case to the latter on his arrival.

§ 7.—When a physician is called to the patient of another practitioner, in consequence of the sickness or absence of the latter, he ought on the return or recovery of the regular attendant and with the consent of the patient, to surrender the case.

(The expression "patient of another practitioner," is understood to mean a patient who may have been under the charge of another practitioner at the time of the attack of sickness or departure from home of the latter, or who may have called for his attendance during his absence or sickness, or in any other manner given it to be understood that he regarded the said physician as his regular medical attendant.

§ 8.—A physician, when visiting a sick person in the country, may be desired to see a neighboring patient who is under the regular direction of another physician, in consequence of some sudden change or aggravation of symptoms. The conduct to be pursued on such an occasion is to give advice adapted to present circumstances; to interfere no further than is absolutely necessary with the general plan of treatment; to assume no future direction unless it be expressly desired; and, in this last case, to request an immediate consultation with the practitioner previously employed.

§ 9.—A wealthy physician should not give advice gratis to the affluent; because his doing so is an injury to his professional brethren. The office of a physician can never be supported as an exclusively beneficent one; and it is defrauding, in some degree, the common funds for its support, when fees are dispensed with which might justly be claimed.

§ 10.—When a physician who has been engaged to attend a case of midwifery is absent, another is sent for; if delivery is accomplished during the attendance of the latter, he is entitled to fee, but should resign the patient to the practitioner first engaged.

Article VI.—Of Differences Between Physicians.

§ 1.—Diversity of opinion and opposition of interest may, in the medical as in other professions, sometimes occasion controversy and even contention. Whenever such cases unfortunately occur and cannot be immediately terminated, they should be referred to the arbitration of a sufficient number of physicians or a court-medical.

§ 2.—As peculiar reserve must be maintained by physicians toward the public, in regard to professional matters, and as there exist numerous points in medical ethics and etiquette though which the feelings of medical men may be painfully assailed in their intercourse with each other, and which cannot be understood or appreciated by general society, neither the subject-matter of such differences nor the adjudication of the arbitrators should be made public, as publicity in a case of this nature may be personally injurious to the individuals concerned, and can hardly fail to bring discredit on the faculty.

Article VII.—Of Pecuniary Acknowledgment.

Some general rules should be adopted by the faculty, in every town or district, relative to pecuniary acknowledgments from their patients; and it should be deemed a point of honor to adhere to these rules with as much uniformity as varying circumstances will admit.

OF THE DUTIES OF THE PROFESSION TO THE PUBLIC, AND OF THE OBLIGATIONS OF THE PUBLIC TO THE PROFESSION.

Article I.—Duties of the Profession to the Public.

§ 1.—As good citizens, it is the duty of physicians to be very vigilant for the welfare of the community, and to bear their part in sustaining its institutions and burdens; they should also be ever ready to give counsel to the public in relation to matters especially appertaining to their profession, as on subjects of medical police, public hygiene, and legal medicine. It is their province to enlighten the public in regard to quarantine regulations; the location, arrangement, and dietaries of hospitals, asylums, schools, prisons, and similar institutions; in relation to the medical police of towns, as drainage, ventilation, etc.; and in regard to measures for the prevention of epidemic and contagious diseases; and when pestilence prevails, it is their duty to face the danger, and to continue their labors for the alleviation of the suffering, even at the jeopardy of their own lives.

§ 2.—Medical men should also be always ready, when called on by the legally constituted authorities, to enlighten coroners' inquests and courts of justice on subject strictly medical—such as involve questions relating to sanity, legitimacy, murder by poison or other violent means, and in regard to the various other subjects embraced in the science of Medical Jurisprudence. But in these cases, and especially where they are required to make a post-mortem examination, it is just, in consequence of the time, labor, and skill required, and the responsibility and risk they incur, that the public should award them a proper honorarium.

§ 3.—There is no profession by the members of which eleemosynary services are more liberally dispensed than the medical, but justice requires that some limits should be placed to the performance of such good offices. Poverty, professional brotherhood, and certain of the public duties referred to in the first section of this article, should always be recognized as presenting valid claims for gratuitous services; but neither institutions endowed by the public or by rich individuals, societies for mutual benefit, for the insurance of lives or for analogous purposes, nor any profession or occupation, can be admitted to possess such privilege. Nor can it be justly expected of physicians to furnish certificates of inability to serve on juries, to perform militia duty, or to testify to the state of health of persons wishing to insure their lives, obtain pensions, or the like, without a pecuniary acknowledgment. But to individuals in indigent circumstances, such professional services should always be cheerfully and freely accorded.

§ 4.—It is the duty of physicians, who are frequent witnesses of the enormities committed by quackery, and the injury to health and even destruction of life caused by the use of quack medicines, to enlighten the public on these subjects, to expose the injuries sustained by the unwary from the devices and pretensions of artful empirics and impostors. Physicians ought to use all the influence which they may possess, as professors in Colleges of Pharmacy, and by exercising their option in regard to the shops to which their prescriptions shall be sent, to discourage druggists and apothecaries from vending quack or secret medicines, or from being in any way engaged in their manufacture and sale.

Article II.—Obligations of the Public to Physicians.

§ 1.—The benefits accruing to the public, directly and indirectly, from the active and unwearied beneficiaries of the profession, are so numerous and important that physicians are justly entitled to the utmost consideration and respect from the community. The public ought likewise to entertain a just appreciation of medical qualifications; to make a proper discrimination between true science and the assumptions of ignorance and empiricism; to afford every encouragement and facility for the acquisition of medical education—and no longer to allow the statute books to exhibit the anomaly of exacting knowledge from physicians, under a liability to heavy penalties, and of making them obnoxious to punishment for resorting to the only means of obtaining it.

EXPLANATORY DECLARATIONS.

Whereas, Persistent misrepresentations have been and still are being made concerning certain provisions of the Code of Ethics of this Association, by which many in the community, and some in the ranks of the profession, are led to believe those provisions exclude persons from professional recognition simply because of differences of opinions or doctrines; therefore,

1. Resolved, That clause first, of Art. IV, in the National Code of Medical Ethics, is not to be interpreted as excluding from professional fellowship, on the ground of differences in doctrine or belief, those who in other respects

are entitled to be members of the regular medical profession. Neither is there any other article or clause of the said Code of Ethics that interferes with the exercise of the most perfect liberty of individual opinion and practice.

2. Resolved, That it constitutes a voluntary disconnection or withdrawal from the medical profession proper, to assume a name indicating to the public a sectarian, or exclusive system of practice, or to belong to an association or party antagonistic to the general medical profession.

3. Resolved, That there is no provision in the National Code of Medical Ethics in any wise inconsistent with the broadest dictates of humanity, and that the article of the Code which relates to consultations can not be correctly interpreted as interdicting, under any circumstances, the rendering of professional services whenever there is a pressing or immediate need of them. On the contrary, to meet the emergencies occasioned by disease or accident, and to give a helping hand to the distressed without unnecessary delay, is a duty fully enjoined on every member of the profession, both by the letter and the spirit of the entire Code.

But no such emergencies or circumstances can make it necessary or proper to enter into formal professional consultations with those who have voluntarily disconnected themselves from the regular medical profession, in the manner indicated by the preceding resolution.

N. S. DAVIS, of Chicago.
A. Y. P. GARNETT, of Washington.
H. F. CAMPBELL, of Augusta, Ga.
AUSTIN FLINT, of New York.
J. B. MURDOCK, of Pittsburg.

On motion of Dr. Brodie the resolutions were unanimously adopted.

On motion of Dr. Keller, it was unanimously agreed that the resolutions be added as an explanatory addendum in all future publications of the Code.

R. R. BENNETT'S INVALID'S COACH CO.

Patented April 24th, 1894—April 25th, 1899.

Telephone, 684 Main **267-269 GREEN AVE., Borough of Brooklyn, NEW YORK**

Suggested by DR. GEORGE MCNAUGHTON

This coach was built for the purpose of removing incapacitated persons free from the annoyance incident to removal in an ambulance.

The coach is of the Berlin style, provided with an air mattress and pillow, the bed being fully six feet in length. On the inside it will accommodate two persons beside the patient.

Realizing the need for this sort of a conveyance, I am prepared to take orders at the following rate: Ten dollars for any portion of time up to two hours; after the first two hours, five dollars per hour. These charges cover the services of two men. When patients are to be brought into town, if the distance is too far to send the carriage, we can send one or two experienced men with the bed, which is so arranged that a litter may be formed of it, the patient remaining on it on the train and is transferred to the carriage without change. Special price made for coaches going out of town. The charge for this service is $5.00 per day for each man and expenses. In cases where it is desired to move a patient from one room to another in the house, it can be done without distress to the individual by having the removal made by two careful men, the charge for which will be $6.00, if in the city. **All service of coach and helpers out of town are extra, terms are strictly cash. This coach will not be used for contagious cases. For all calls, time from office until return.**

[COPYRIGHTED.]

I have found the Invalid's Coach, kept by Mr. Bennett, of the greatest possible advantage. It has afforded a safe and comfortable means of conveying patients from their homes to the hospital for operation, thus enabling even the most desperate cases to obtain the benefits of hospital treatment.—GEO. R. FOWLER.

MALTINE

IS A HIGHLY CONCENTRATED EXTRACT OF BARLEY, WHEAT AND OATS

Maltine

MALTINE is rendered particularly delicious and refreshing if administered with any of the aerated waters, milk, wine or spirits. Thus a *pleasing change is afforded* to capricious or fastidious invalids.

MALTINE, aside from its great nutritive value, is so rich in Diastase that a dose *readily digests all the starchy food,* such as bread, potatoes and cake, which the average adult eats at a single meal.

UROTROPIN

UROTROPIN is a most efficient diuretic, urinary antiseptic, uric acid solvent, and remedy for calculous disease, rapidly rendering alkaline and putrid urine containing mucus, pus, uric acid, and amorphous urates normal in appearance and reaction. It sterilizes the urine, increases its quantity, and dissolves calculi and deposits. It is of exceptional value as an antidote to urinary poisoning in all suppurative diseases of the genitò-urinary tract, as in chronic urethritis and prostatitis, calculous disease, pyelitis, cystitis with ammoniacal decomposition of the urine, and also in gouty and rheumatic affections where active elimination of uric acid and the urates is required. It is also very useful to quiet the irritable bladders of diabetics. It has been extensively employed with most excellent results preparatory to operative procedures upon the urinary organs, since it sterilizes the urine and prevents infection of the wound. Its excellent effects in chronic phosphaturia have been testified to by **Drs. Windell** of Louisville, **Allison** of Omaha, and **Professor Casper** of the University of Berlin. Extremely favorable reports of its efficacy have been published by **Professors Nicolaier, Heubner, Wilcox, McGee, Horwitz,** and **Elliott, Drs. Brewer, Cohn, Flexner, Thompson, Richardson, Ehrmann, Howland,** and many others.

DOSE For adults, 7½ grains two or three times daily, best administered in half a pint of plain or carbonated water. Much larger amounts can be given when indicated, however, up to 60 grains or more daily.

UROTROPIN, prepared by the **Chemische Fabrik auf Actien, formerly E. Schering**, of Berlin, Germany, is supplied in half ounce and one-ounce vials and in the form of ½-gram (7½ grains), and ⅓-gram (5 grains) tablets in paper boxes of twenty and thirty tablets respectively.

Physicians are requested to see that the preparation used bears the names of E. Schering, Berlin, and our own, which is a guarantee of its absolute purity.

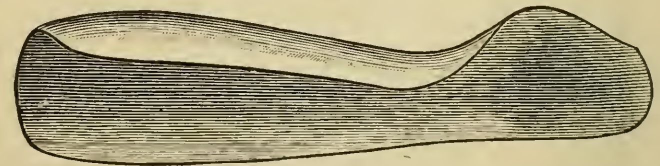
30 DAYS' TRIAL OF

STODDART'S PEERLESS SPLINTS



These Splints mark a great advance in the use of scientific surgical appliances, and fill a want long felt by every surgeon. They are very light in weight, yet as strong as any in the market, and every surgeon who uses them is delighted with them. We have demonstrated that it is not necessary to weigh a patient down with heavy or cumbersome metallic, wood or felt splints, but that a light splint, equally as strong as any of these, may be used.

The ambulance set of **Stoddart's Peerless Splints**, consisting of 35 pieces, will be sent to any physician on trial, express charges prepaid, and if the Splints are not satisfactory they can be returned to us within 30 days at our expense. The price of this set is eleven (**$11**), payable at the end of the 30 days, if the trial of the Splints is found to be satisfactory.

No surgeon can afford to be without a set of these Splints. Address,
